- KNOW YOUR CAPABILITIES AND LIMITATIONS**
1. Use common sense and good judgment. This sport is so exhilarating that loss of these capabilities can be dangerous. Use the "buddy system". Don't go alone.
 2. Come prepared: know the area, the weather, your route and the condition of your own body and equipment.
 3. Start with a sensible checklist of proper clothing, equipment and safety gear.
 4. Know how to repair your machine and carry a repair kit along with extra spark plugs, drive belt, a roll of twine and a knife. The last two items can be lifesavers if you need to improvise snowshoes or a shelter with branches.
 5. Take light, high-calorie foods and layers of high-quality, insulated clothing that are adaptable to all weather changes. Remember your boots and helmet.
 6. Know the basic principles of map and compass reading and use them! Drive only until you have a half a tank of gas left, then GO BACK. Gas stations don't come by very often.
 7. Let a friend or relative know you are taking a snowmobiling trip, then inform them of your planned route as well as departure and return times. Stick with the plan. If it changes, let them know and always check in upon return.
 8. Snowshoes might be added to your equipment list for each individual in case your snowmobile happens to break down and you have to walk out.
 9. If traveling avalanche prone areas, carry a collapsible pole for probing and a small shovel for digging.
 10. Stay on the right side of the trail as snowmobile trail rules are similar to highway rules.
 11. Do not drink alcohol and ride. Please remember the time to have that drink is when you are safely back at the trailhead after a fantastic day of breaking Wyoming powder.
 12. Do not speed on the trail. Drive responsibly. Let's all do everything we can to keep snowmobiling safe for everyone.

ETIQUETTE

Observing trail etiquette is a necessity, particularly when trails are heavily used and non-snowmobilers may be present on the trail. Use the proper hand signals when turning or changing direction or speed. Stay a safe distance behind the snowmobile ahead of you. When you are making a turn, remember that at a blind corner the noise of the machine may prevent you from hearing another machine coming toward you. Approach all turns carefully. Always stay to the right on trails. Slow down, or pull off the trail if necessary when encountering skiers, snow-shoers, dog sleds or other trail users. They all enjoy the outdoors like you. Set a good example and be a respectful trail user.

TAKE CARE OF THE TRAIL

Safe riders snowmobile to enjoy the outdoors. They treat their surroundings with respect. They wait for enough snow cover to protect vegetation. They avoid running over trees and shrubs. They appreciate, but don't disturb, animals and other outdoor users. They respect wilderness boundaries and winter wildlife areas. Be a respectful trail user!

WARNING

Due to Extensive Beetle Kill Trees, Trails are Subject to Closure or Rerouting. Please be Advised and Pay attention to On Ground Signage.

Enjoy the ride!

SAFETY ISSUES

DRESSING RIGHT

Wear layers of clothing so that you can add or remove a layer or two to match changing conditions. Remember, Wyoming weather can change several times a day! Be prepared. Wear a helmet and adequate eye protection. Wind, snow and sun can be hard on your eyes without a face shield or sun glasses.

AVALANCHE

There is little danger of avalanches on the marked trails. However, for off-trail travel, be aware of the topographic features and snow and weather conditions that increase sliding potential.

ALCOHOL AND SNOWMOBILING SIMPLY DO NOT MIX

Forget the myth that alcohol warms up a chilled person. It opens the blood vessels and removes the feeling of chill but it does nothing to increase body heat. Instead, it can increase the risk of hypothermia, a dangerous lowering of the body's core temperature.

Alcohol increases fatigue, fogs your ability to make good decisions and slows your reaction time. It's part of a formula for disaster, and drinking and driving is against the law!

HYPOTHERMIA

Exposure could be a substitute word for "hypothermia" and is associated with winter. Problems caused by exposure, however, occur during times when the weather is not extremely cold.

Four primary factors contribute to hypothermia: cold (not necessarily severe), wetness (rain, snow, water immersion or condensed perspiration), wind (chill factor), and exhaustion and/or lack of preparedness. Symptoms include uncontrolled shivering, vague or slurred speech, fumbling hands or stumbling gait, memory lapses, drowsiness and apparent exhaustion.

Combat hypothermia by being prepared with high quality, insulated clothing (wool or synthetic fibers), adequate knowledge and emergency rations.

ICE FOLLIES

Drowning is a leading cause of snowmobile fatalities. Wherever possible, avoid riding on frozen lakes and rivers because ice conditions are never a safe bet. If you must cross ice, check it out first on foot. Stay on the packed or marked trail. Don't stop until you reach shore. If you hit slush, don't let off the throttle. If you are following someone who hits slush, veer off to make your own path. As a rule of thumb, "if you don't know, don't go".

WHITEOUT CONDITIONS

A whiteout can occur when a sudden snowstorm hits you. The snow falls so heavily that visibility is zero. Experience cannot prevent you from getting lost during a whiteout. If you're caught in the middle of one, the best bet is to stop and STAY WITH YOUR MACHINE. Wait until the condition lessens.

FLAT LIGHT

This white-against-white situation makes it difficult to judge distances and changes in the terrain, particularly when traveling on a rapidly moving vehicle. Reduce your speed, keep a sharp eye out for abrupt drop-offs or other changes in terrain. Stay on the trail. Wear amber lensed glasses or a face shield to increase contrast and improve visibility.

FROSTBITE

Frostbite is caused by exposure of inadequately protected flesh to subfreezing temperatures. Tissue damage occurs because of reduced blood flow to the extremities. Symptoms include loss of feeling and a dead-white appearance of the skin. Treatment: restore body temperature as rapidly as possible by providing external heat. Immerse affected parts in a water bath of less than 110 degrees, use a hot water bottle or heat from a campfire. Affected parts should be covered. Do not rub or apply pressure to affected areas and do not apply snow or attempt to thaw in cold water.

MAINTENANCE

You have two good guides available for snowmobile maintenance: the owner's manual that came with your machine and your dealer. Consult both to make sure your machine is kept in top form for dependable, enjoyable fun.

TAKE A FRIEND

Don't snowmobile alone. Not only is snowmobiling more fun with family and friends, it's safer too.

WARNING
Due to Extensive Beetle Kill Trees, Trails are Subject to Closure or Rerouting. Please be Advised and Pay attention to On Ground Signage.

Wyoming Search and Rescue

The next person saved could be you or someone you love.

Wyoming Search and Rescue personnel conduct more than 300 missions annually for those who become lost, stranded or injured.

Even \$2 can help...

Donate to Search and Rescue when you purchase your fishing, hunting, boating, snowmobile and ORV licenses.

For more information contact the Wyoming Search and Rescue Council at (307) 777-4900 or visit <http://his.wyo.gov>

WYOMING RANGE WESTERN WYOMING

The Wyoming Range trail system is maintained through cooperative efforts of the Wyoming Department of State Parks and Cultural Resources/Division of State Parks, Historic Sites and Trails, the U.S. Forest Service, the Bureau of Land Management, Lincoln County and local snowmobile clubs.

The Wyoming Range is the area between Alpine and Kemmerer. This area has approximately 391 miles of trails. The main trails are groomed every week and the secondary trails are groomed every other week or as needed. Snowmobiling is allowed in Alpine, Afton and Kemmerer, Pinedale, Big Piney and LaBarge all offer access to trailheads on the east side of the range. This area offers deep snow, beautiful scenery and fantastic off-trail riding. Rentals are available in Pinedale, Alpine and Thayne. Snow depths run from 3 feet to 12 feet.

Elevations: 6,000 feet to 10,000 feet
Grooming Season: Mid-December through Mid-March, depending on snow conditions and funding
Season temperatures: +30 degrees F to -30 degrees F

TOTAL MILES: 391
GROOMED: 245
UNGROOMED: 146

Sherman Bunkhouse - Near Sherman Parking Off Trail H, historic Forest Service Bunkhouse avail. for overnight rental (by reservation only) 307-276-3375										
Snyder Basin Bunkhouse - Off Trail H, historic Forest Service Bunkhouse avail. for overnight rental (by reservation only) 307-276-3375										

WILDLIFE WINTER RANGE

Winter ranges provide wildlife a place to feed and conserve energy because of less snow cover. You can help them survive by obeying winter range closures and restrictions. Observe wildlife from a distance and do not attempt to follow them. The closer you get, the more stress the animal feels. If they react to your presence, you are too close. When possible, choose your recreation in higher areas away from the prime winter range in the meadows, creek bottoms and on sunny south facing slopes. Enjoy the snow up high where you're less likely to disturb wildlife. Report harassment or trespass onto closed winter range areas to your local game warden.

Snowmobile Dealers

Dealer	Alpine, CO	Powells	Ski Doo	Yamaha

PERMITS

Resident and non-resident snowmobile user fees are required by Wyoming State Law. These annual user fees are used by the Snowmobile Trails Fund for trail grooming and maintenance. Proof of payment is in the form of a decal which must be displayed on the exterior of the snow machine.

Decals are available from licensed permit selling agents across the state, Wyoming State Parks and Cultural Resources headquarters in Cheyenne and local snowmobile clubs. The fee is \$35.00. For the nearest selling agent location, refer to the agent list on this map. A full list of permit selling agents is listed at <http://wyotrails.state.wy.us>.

Non-residents may order maps and decals by mail or phone order from Wyoming Department of State Parks and Cultural Resources, Attn-Snowmobile Registration, 2301 Central Ave., 4th floor, Cheyenne, Wyoming 82002. Major credit cards accepted. Please allow two weeks delivery. Phone orders call 1-877-996-7275. ORDER PERMITS ONLINE AT: <http://wyotrails.state.wy.us>.
